

# Benefits of financing

## Reasons to finance your next business purchase

### Conserve cash

Have a fixed, regular payment with no money down. Save cash for other revenue-generating activities.

### Flexible custom solutions

Since we are a non-bank financing provider, we offer even more finance solutions.

**Custom payment structures:** We offer a wide range of payment structures such as monthly, quarterly, deferred, skip, pay-per-use, bridge-to-budget, and step lease programs. Tell us what you need and we will do our best to accommodate.

**Term lengths:** We customize any term. Standard terms range from 12 to 60 months.

**End-of-term options:** Flexible solutions that allow you to purchase the equipment for the Fair Market Value (FMV), \$1 buyout, renew for a specified term, or upgrade the equipment.

### Upgrade technology

Avoid technology obsolescence and continue using state-of-the-art equipment with little or no up front cost. Financing allows you to upgrade your equipment at any time during the term, allowing you to stay competitive.

### Fast and simple process

With a one-page credit application, you can have a credit decision for application-only transactions generally within two to four business hours. Larger transactions generally have a credit decision within one to two business days.

### 100% financing

Finance 100% of the equipment cost, including soft costs such as freight, installation, training, and other charges into fixed, regular payments.

### Tax benefits

Capital structures may allow you to take advantage of the Section 179 deduction and write-off your entire equipment purchase over one year instead of over the next several years. Please consult with your tax advisor on the specific impact to your business.
